Quality Stock for Spring of 1917

WOODLAWN NURSERIES

ALLEN L. WOOD

ROCHESTER, N. Y.

Wholesale Price List

For Dealers and Large Fruit Growers

TO THE TRADE In presenting this list to you we want to state that the stock quoted on the other side is the very best that can be grown. It is free from disease, insect pests, and is True to Name.

WOOD'S TREES have supplied the markets of the World through other firms for years.

OUR PRICES are as low as any responsible competitor is able to quote and the quality of the stock is superior in every respect for in no section is the soil and climate equal to Rochester for the propagation of Nursery Stock.

PACKING and SHIPPING The prices we are quoting cover packing and boxing, but not Transportation charges. We make no charge for delivering to Express or Freight Offices.

RELIABILITY Write to any Bank or Business House in Rochester.

BUY FROM A RELIABLE FIRM If you were starting a bank account you would look carefully into the financial standing of the institution before trusting it with your money. When you invest your money in nursery stock you should be just as careful to invest it with a reliable house. Many people make the mistake of buying where they can get the most for the least money. They overlook the fact that the first cost of the stock is small compared to the cost of planting, caring for the stock and loss of time, when the low priced stock proves a failure, as it usually does. **There is but little difference between the cost of good stock and poor stock, and it pays to buy the best, and from a reliable firm who offers their customers some protection in the way of financial standing good enough to make good any guarantee.** An investigation of our financial standing will show that we are responsible in every way.

We know that we can please you, and ask for your patronage.
